Profile

This Candidate comes from an application developer background where he was programming mainly in C# and ASP.NET. He has been in the IT industry for the last almost twenty years.

He is currently finishing up his contract which ends on 12/7 and he is looking for a full-time opportunity. His main thing he is doing in managing and implementing CI/CD pipelines. This project has been complex because the company is currently in twenty-six countries. Based on the multiple sites in order to deploy, he had to really focus on the configuration. The reason he will be gone from 11/26-11/30 is to go to Europe to complete this project.
